

Trial of Medical Therapy Algorithm

Alpha Blocker as initial therapy

*If patient also has ED, can start with PDE5 as initial therapy

Lack of or incomplete response to Alpha Blocker and/or cannot tolerate

Consider trial of PDE5

Lack of and/or incomplete response to therapy

Prostate >30cc,
consider addition of 5ARI

Discuss surgical options, see *Surgical Management Algorithm*

Lack of and/or incomplete response to therapy

For mixed OAB/BOO symptoms, see above and refer to OAB Guidelines (i.e. anticholinergic and B3 agonist therapy)
